

## LR1480 - ADJUSTABLE PULL DOWN W/ SNOOT 4" LOW VOLTAGE TRIMS

### SPECIFICATION

12V 75W Max MR16 GU5.3

**Application:** The elbow design allows for full horizontal and vertical adjustability. With the lamp enclosed in the trim, annoying glares from back and sides of the trim are eliminated to provide visual comfort. Additional options are available that provide glare and optic control.

**Gasket:** Supplied with gasket to prevent light leakage and unsightly heat streaks on ceiling surface.

**Lens Inclusion:** Clear glass protective safety lens included in packaging.

**Mounting:** Steel pressure springs mounted on trim to ensure positive retention inside housing.

**Trim Finish:** Die-Formed Construction Available in White, Black, Chrome, Natural, Copper and Mocha.

### COMPATIBILITY

|                                                                                                                                          |                                                                                                                                                  |                                                                                                                                                    |
