

LT538 - GU10 ROUND BACK LINE VOLTAGE TRACK FIXTURES

SPECIFICATION

120V 50W MR16 GU10

Application: These track heads feature traditional designs and are compatible with compact line voltage lamps, including LED and Incandescent. They utilize GU10 MR16 LED lamps which are compact and cost-effective. Similar in size to a standard 12V MR16, compatible LED lamps like those made by Soraq, are self-contained and eliminate the need for a driver or transformer.

Dimming: Please refer to the lamp manufacturer for dimming information.

Connector: Comes standard with 3-Wire H-Type thermo-plastic track connections. Fixture is factory preset for installation on single-circuit track. Contacts may be easily adjusted to install on two-circuit track via pull-up tab. J-Type and L-Type connections are available with extended lead times - consult factory.

Socket: Standard porcelain GU10 "Twist & Lock" socket with high temperature leads.

Warranty: Covered by a 1 Year Warranty to be free of defects in materials and craftsmanship.

Finish: High heat rated baked enamel. Available in Black and White. Custom finishes available with extended lead times - consult factory.

Label: UL Listed
