

LT701 - ANTENNA EXTENSION LOW VOLTAGE EXTENDED TRACK

Using SNT16B for snoot accessories, LP911B for barndoor accessories, LTP67 for Glass lens holder.

SPECIFICATION

12V 50W MR16 GU5.3

Application: The FlexiTrak Series is a revolutionary track lighting element that allows for the benefits of an extended light source from the track, while being able to adjust the lamp position to any height and any angle. Its wire form extended design allows the user to easily set lamp position without the need for any tools.

Connector: Comes standard with 3-Wire H-Type thermo-plastic track connections. Fixture is factory preset for installation on single-circuit track. Contacts may be easily adjusted to install on two-circuit track via pull-up tab. J-Type and L-Type connections are available with extended lead times - consult factory.

Transformer: Solid state electronic transformer for voltage reduction and noiseless operation. 120V/60Hz input – 12V output. 50 VA max. load. (Unless specified otherwise) For dimming, use electronic low voltage rated dimming controls. When using dimmer controls, it is recommended to fully power lamps without dimming for 50+ hours to maximize halogen lamp life.

Socket: 2-pin porcelain socket with aluminum heat sink plate. Lamp clips to trim to ensure proper and consistent positioning.

x Extends: Standard polycarbonate components Only available in 12"-24". Chrome finish antenna rods. Custom finishes available with extended lead times – consult factory.

Finish: Available in White and Black.

Label: UL Listed

COMPATIBILITY

LP

1 CCT TRACK CHANNEL

LPC

2 CCT TRACK CHANNEL

Note: Wattage limitations on compatible items must be met.
