

LT840 - ROUND BACK CYLINDER 38 LINE VOLTAGE TRACK FIXTURES

Accommodates LP404 Accessory Holder, for use with L9 Series Lenses and LP444 Louver.

SPECIFICATION

120V 100W Max PAR38 MED E26

Application: For that studio/theatrical look, these fixtures are a perfect fit. These classic designs are traditionally styled favorites of line voltage lighting. The built-in baffle design provides excellent cut-off and light control as well as an aesthetic feel to the environment.

Fully enclosed lamp enclosure and regressed lamp position help capture all stray light and direct it towards desired subject. The baffled opening ensures minimal glare from lamp for maximum visual comfort. Front loading designs and integral tightening knobs allow for quick and easy lamp replacement without the need to reset head position. Made of high quality formed aluminum, they are dependable for residential and light commercial applications, for worry free operation for years to come.

Connector: Comes standard with 3-Wire H-Type thermo-plastic track connections. Fixture is factory preset for installation on single-circuit track. Contacts may be easily adjusted to install on two-circuit track via pull-up tab. J-Type and L-Type connections are available with extended lead times - consult factory.

Aiming Mechanism: Internal mechanism to rigidly maintain aiming angle.

Socket: Standard porcelain medium screw base socket with high temperature leads.

Finish: High heat rated baked enamel. Only available in Black w/ Black Baffle. Custom finishes available with extended lead times – consult factory.
