

LT856 - LUMINAR 20 LINE VOLTAGE TRACK FIXTURES

SPECIFICATION

120V 50W PAR20 MED E26

Application: For a modern high-tech look these rigid steel yoked Luminar fixtures offer an elegant design statement. The unique dual-rail yoke allows for cooler operation along with a less-obtrusive design. They have integral tightening knobs to ensure precise aiming for years to come. The front-loading design allows for easy lamp maintenance.

Connector: Comes standard with 3-Wire H-Type thermo-plastic track connections. Fixture is factory preset for installation on single-circuit track. Contacts may be easily adjusted to install on two-circuit track via pull-up tab. J-Type and L-Type connections are available with extended lead times - consult factory.

Adjustability: Dual wire gimbal frame constructed of solid square steel wire . Provides full lateral and vertical aiming . Lamp held securely with steel springs . Dual plastic tightening knobs to rigidly maintain aiming angle.

Socket: Standard porcelain medium screw base socket with high temperature leads.

Finish: High heat rated baked enamel Available in White, Black and Natural Metal. Custom finishes available with extended lead times – consult factory.
