

LT859 - ROUND BELL BACK LINE VOLTAGE TRACK FIXTURES

Accommodates L8 Series lenses when used with LP201 Accessory Clips.

SPECIFICATION

120V 75W PAR30 MED E26

Application: For a modern high-tech look these rigid steel yoked Luminar fixtures offer an elegant design statement. The unique dual-rail yoke allows for cooler operation along with a less-obtrusive design. They have integral tightening knobs to ensure precise aiming for years to come. The front-loading design allows for easy lamp maintenance.

Connector: Comes standard with 3-Wire H-Type thermo-plastic track connections. Fixture is factory preset for installation on single-circuit track. Contacts may be easily adjusted to install on two-circuit track via pull-up tab. J-Type and L-Type connections are available with extended lead times - consult factory.

Aiming Mechanism: Mounting yoke constructed of solid square steel wire. Provides full lateral and vertical aiming. Dual triangular plastic tightening knobs to rigidly maintain aiming angle.

Socket: Standard porcelain medium screw base socket with high temperature leads.

Finish: High heat rated baked enamel Available in White, Black and Natural Metal. Custom finishes available with extended lead times – consult factory.
