

LED STEPLIGHTS / PATHWAY LIGHTING

FOR ILLUMINATING PATHWAYS, STAIRCASES, AISLES AND LOW LEVEL POINT OF EGRESS

Application

High quality, die-cast step lights feature a 'no-screw' faceplate for a sleek, modern appearance. Consuming only 3.5 watts and delivering 240Lm, they are an energy efficient solution for lighting interior pathways, aisles and low-level points of egress in residential and commercial applications. Perfect for improving safety in dimly lit areas.

No-Screw Faceplate for a clean modern look

Energy efficient, consumes just 3.5 watts, delivers 240 Lumens

Mounts to standard Single-Gang J-Box (1-1/2" Minimum Depth)

120V direct wiring. No remote driver required

2850K CCT, 80CRI

Available with Amber Lens (~590nm)

Tamper resistant

ELV dimming is standard. Dims to 10%

Horizontal

Round

Round Models offer Optional Mounting Bracket for cement pour, retrofit and joist mount. **(LSLDR-BRKT)**

Seamless die-cast aluminum construction for durability and long lasting beauty

Vertical

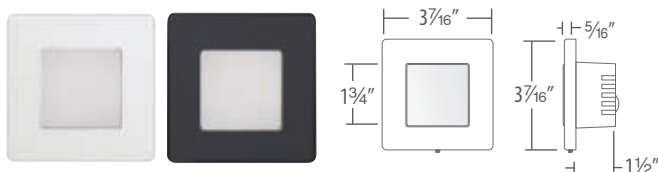

Square
