

4" Round LED Adjustable Downlight w/ 4" LED Lensed Reflector

4" LED ARCHITECTURAL DOWNLIGHT

SPECIFICATION

Application: Architectural 4" Adjustable Round LED Housings are designed for medium to high ceiling heights in retail, hospitality, commercial and architectural applications. Advanced 'hot-aiming' mechanism allows precise and lockable positioning of the trim prior to finishing the ceiling. Post-installation adjustment of the beam tilt is possible from below the fixture.

Adjustability: Collar bracket provides 30° of rotation, marked in 5° increments for positioning before drywall installation. Lamp holder assembly allows 45° tilt.

Mounting: Housing for new construction installations only, Bat-Wing bar hanger brackets adjust vertically 3 1/4" for multiple ceiling types. Heavy-duty steel hanger bars (C260-J) optional. Accepts 1/2" EMT, 26" C-Channel Strut for T-Bar ceilings and 27" adjustable linear bar hangers (optional).

Driver: Electronic Direct Current LED driver integrally mounted in electric junction box.

Dimming: UniDim (-DUN) option is a universal dimming system that works with most 3-Wire ELV, 2-Wire Incandescent and 5-Wire 0-10V fluorescent dimmers.

Power Connection: LED lamp array is replaceable via on board quick disconnect terminal. Meets CA Title 24 Requirements and other standards restricting the use of Medium Base or Bi-Pin Sockets.

Junction Box: 16 gauge pre-wired galvanized steel Junction Box, 32 cubic-inch for a maximum of (8) #12 AWG wires. Furnished with (7) 3/4" and (4) Romex knock-outs. Strain clamps to install or remove covers for easy access and ground wire. Equipped with safety standard fitting for flex-conduit.

Optics: Interchangeable optics allow polycarbonate lens to be changed in the field to modify beamspread. No tools required.

Lumen Maintenance: Minimum 50,000 hours L70 life based on ANSI TM-21 calculations from LM80 standardized test results.

Thermal Management: Effective thermal dissipation facilitated by integral cast-aluminum, finned heat sink design for maximum heat rejection to provide long LED life.

Safety Labels: ETL/cETL listed. Suitable for dry and damp locations.

FEATURE:

Application: Architectural 4" LED Trims feature fully die-cast, seamless construction insuring long lasting beauty and durability. They are designed for medium to high ceiling heights in retail, hospitality, and commercial applications that benefit from linearity and symmetry in modern interior lighting designs.

Trim Construction: Trim is built of solid die-cast aluminum for long lasting beauty and durability.

Lens: Frosted lens controls glare and eliminates view of lamp. Easy access to lamp mechanism and facilitates trim removal.

Mounting: Steel pressure springs mounted on trim to ensure positive retention inside housing.

Warranty: Covered by a 5 Year Warranty to be free of defects in materials and craftsmanship. Recommended for applications where ambient temperatures do not exceed 35°C, installations exceeding this temperature will result in reduced LED lamp life and a voided warranty.
